

# **User Manual**

www.bigbullfx.com

#### WARNINGS

U.S. Government Required Disclaimer Futures, Options, and Forex trading has large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures, options, and Forex markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures, options, or Forex contracts. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this web site. The past performance of any trading system or methodology is not necessarily indicative of future results.

## REQUIREMENTS

#### SERVER

- Windows Vista/7/8 or Windows Server 2008 or Higher
- minimum 1.5GHz processor
- at least 1 GB RAM
- stable internet connection

#### **BROKER – ACCOUNT TYPE**

- Any account type with 5 digit pricing
- If your balance is under 1000 USD then min trading size should be 0.01 lot (microlot)

Find Forex broker here >>>

#### MINIMUM BALANCE

• 150 USD / currency pair / side

#### IMPORTANT

MetaTrader 4 and Big Bull FX Expert Advisor should work 24 hours per day. Running only some hours pro day will cause totally different results.

## Dear Forex Trader!

#### Thank you very much for purchasing Big Bull FX Robot!

First of all, we would like to welcome you as our customer. Please read this Manual carefully before using the product.

Big Bull FX is the most reliable Expert Advisor for MetaTrader 4, created by forex market experts with many years of experience in this field.

The strategy of Big Bull FX is really simple, as a result, it is not only for experienced traders, but also for beginners. It is really easy to use, easy to install and easy to earn a lot of money!

In this User's Manual you will get step-by-step instructions how to install the Expert Advisor, but if you have any questions or problems regarding the EA, you can always contact our support team at <a href="mailto:support@bigbullfx.com">support@bigbullfx.com</a>!

## FIRST STEPS

After you have bought the robot, you will find an email in your inbox containing your login credentials to our website, and the download link of Big Bull FX Robot. (The latest version of the EA is also always downloadable after logging into the website)

You have to download the ZIP file which contains the EA. Extract the files to your PC. (You can use any free compressing software like, WinZIP, WinRAR etc.)

## ACTIVATION

To activate your copy of Big Bull FX Robot please login to our website by clicking on the "My Account" button on the website or using this link: <u>www.bigbullfx.com/my-account</u>

Afterwards enter your MetaTrader 4 account number (it was provided by your broker) to the text field and click on "Save Changes" button. Your license key will be automatically generated next to your account number. Later you have to copy this license key to the Expert Advisor's inputs.

Account Numbers	
Change your Account numbers	License Keys
Account number 1	f353254ee4cc14777107eed9f75ce23aa4a19024
123456	
After editing your settings, please restart BigBullfx expert in you	ur Metatrader. It may take a couple of minutes until the changes take effect.
Please copy property your License key to the Expert Advisor:	
Save Changes	

#### INSTALLATION

- 1. Start your installed copy of MetaTrader 4 terminal and login to your registered account.
- 2. Open MetaTrader 4's Data Folder by clicking on File -> Open Data Folder

Your MetaTrader 4's Data Folder will appear

- 3. Go to "MQL4" folder then to "Experts" folder and copy all **.ex4 files** from the previously downloaded and extracted files.
- 4. Go one level up and enter to the "Libraries" folder. Copy all **.dll files** from the previously downloaded and extracted files.
- 5. Now you can close the Data Folder.
- 6. Go to the MetaTrader 4 terminal and open the Navigation window in by clicking View -> Navigator

7. Right click to Expert Advisors and press Refresh. Then Big Bull FX Expert Advisor will be visible for usage. (Or restart you MetaTrader 4 terminal)

You are successfully completed the installation!

#### **META TRADER 4 OPTIONS SETUP**

- 1. In your MetaTrader 4 terminal click on Tools -> Options
- 2. Navigate to Expert Advisors tab
- 3. Check: Allow automated trading and Allow DLL imports and Allow Web Requests

4. All other boxes should be unchecked
